

This week at Little Learners:

We have been talking about starting school in September. We talked about the uniform we will wear and about the new friends we will make.

We designed a school uniform; we drew pictures of what we would like our uniform to look like.

We practised lots of things to help us get ready for school such as putting on our coat and shoes independently and writing our name.

We talked about school rules such as remembering to use walking legs inside and sitting quietly to listen at story time.

We listened to a story called 'Sam starts school' about a little boy who loved his first day at school.

We have been for visits over to reception, exploring the environment and the resources.

We have been making football pictures, flags and bunting and talking about watching the football on the TV. We even made an England flag out of play dough!

In messy play we have explored pasta, flour, play dough and compost. Outside, we used buckets of water to 'paint' the fence and wash the cars.

We have created some beautiful patterns using sponges to dip in paint and print onto paper.

We have been mark making on the path outside using the giant chalks.

We have had the parachute out in the garden which is lots of fun! We all ran underneath it to hide, and then we used it to bounce a ball around from one side to the other.
