

OUR Learning KEYS

Fractions B

Maths

Year 3

Summer

Weeks 1-2

Questions

- How many equal parts is the whole divided into?
- How many parts are you adding?
- How can you use a bar model to add these fractions?
- Which models show partitioning?
- Which models show finding the difference?
- What fraction of the bar model is shaded?
- How can you use base 10 or place value counters to help you?
- Which operation should you use to find the fraction of an amount?

Vocabulary

Fraction, whole, denominator, numerator, equal parts, divide, partition, bar model, unit fraction, non-unit fraction

Images

The number line shows $\frac{2}{5} + \frac{1}{5} = \frac{3}{5}$

Amir uses a bar model and base 10 to find $\frac{1}{3}$ of 69

Scott and Dani are working out $\frac{4}{5} - \frac{2}{5}$

Facts

- Add Fractions
- Subtract Fractions
- Partition the Whole
- Unit Fractions of a Set of Objects
- Non-Unit Fractions of a Set of Objects
- Reasoning of a Set of Objects

Previously...

Earlier in Year 3, children will have looked at unit and non-unit fractions.

Year 3
Summer
Weeks 1-2

Next...

In Year 4, children will look at mixed numbers and improper fractions.
