

Our Learning Keys

Sculpture: Buried Treasure

Art

Year 1

Spring 1

Questions

- What shapes can I make using malleable materials?
- What tools will I need to decorate my shape?
- What skills do I need when using clay?

Images

Links

- Maths: using shape, space and measures, measuring accurately, knowing 3D shapes
- History: recreate artefacts from the past

Vocabulary

sculpture	3 dimensional artwork
malleable media	Clay, plasticine and salt dough can all be changed in shape by hand or tools
rolling	Make something flat
shaping	Using tools or hand to create a 3D form
impress	Make marks in malleable media using tools, or by hand
carving	To scrape or cut off

Skills

- To use a range of materials creatively to design and make products.
- To use sculpture to develop and share ideas, experiences and imagination.
- Practise techniques using a range of malleable media e.g. salt dough, plasticine, soap, before using clay.
- Use rolling and shaping to create basic shapes.
- Impress and apply simple decoration techniques, including simple carving and painting.
- Use tools and equipment safely and in the correct way.

Previously...

In Reception we learned how to use playdough and salt dough to make and build shapes and objects.

Spring
Term

Next...

In Year 2 we will develop our ideas further as well as using pinching and pulling to create different forms in clay. We will also practise joining clay together securely.

Doors this will open...
