

Art Area

Your task is:

To create your own chalk image in the style of the Northern Lights aurora.

Think about:

- How can you use cotton wool to create different textures, by smudging and blending the chalk?
- Does using the end of the chalk or the side of the chalk create a better effect?
- Can you create new colours or effects such as waves or ridges using the cotton wool?

Art Area

I must...

Create a chalk drawing of the Northern Lights, using a variety of colours and cotton wool to blend.

I should...

Try to replicate the shapes and colours in the images on the table.

I could...

Create a silhouette of a landscape to cut out and place in front of my aurora.
