

Some of the questions we hope to answer this term.....

- Where are different countries in the world?
- What is the climate like?
- What types of habitats are there?
- How animals have adapted to their habitats?
- What is a food chain?
- What is a food web?
- What is a myth?
- What is a landscape and types?
- What are the traditions, customs and beliefs around the world?

Can you help?

Do you have any artefacts, experiences or information that could add to this work?

If you feel you can offer any help please let us know. Please make sure anything you send into school is clearly labelled.

Spin the globe

Year 4

**Spring term
2020**

This term we are going to enrich our learning with...

- * A stunning start in which the children will learn different cultures and animals around the world.
- * Independent Learning Activities to help us discover more about Australia, Nepal and a 3rd destination chosen by the children.
- * Activities and investigations to help us find out about animal life in different habitats and how they have adapted to living there.

You might like to join in with our learning at home by ...

Reading

Visiting

- Reading stories set around the world.
- Visiting the library to find out about different cultures, foods, music,...
- Reading about animals and their habitats.
- Visiting natural parks, zoos, museums about animals or places around the world.

Making

- * Making a 3D model about food chains or food webs labelling each of the steps (producers, consumers, predators,...)
